Global Resources: Community of 8,000+ Licensing Professionals

LES is a diverse community of licensing professionals who drive strategy, transactions and deals involving intellectual property, business and law to fuel the evolving innovation economy. Our unique network enables you to reach out to a broad variety of experienced corporate, private, academic and non-profit licensing professionals to catalyze your deals, ask questions, find resources and be a part of a thriving community dedicated to helping your business achieve its highest potential.

We Understand Your Technology

Our diverse perspective is unique to LES. Our Technology Sectors: High Tech, Life Sciences, Chemicals, Environment, Energy and Materials, Industry University Government Interface and Consumer Products have a wealth of knowledge and experience on issues facing your industry, whether it be IoT, Blockchain, Renewable Energy, COVID-19 or the Bayh-Dole Act.

Market Intelligence

Your time is valuable, and you need answers. We have resources to help.

- Our unique Deal Term and Royalty Rate surveys are sector specific, and obtain information from actual deals from around the world.
- Best practices: Access our ZOOM chats, educational courses, webinars, newsletters, publications, and blogs in which our members share their best practices for the changing IP business landscape, presented by world authorities in their fields.
- Deal term agreement resources and news.

Local Chapters and Your Special Interests

- Over 40 Local Chapters providing networking, webinars and resources.
- Young Members Congress, Women in Licensing, Valuation & Pricing, Licensing Standards Initiative, Public Policy – whatever your interest, we have a focus group for you.
- Professional Development tools and opportunities to advance your career.
